S.Parthasarathy,
Deputy Secretary to Government

/true copy/

Copy of letter from N.Numar, Deputy Director (Socio-econ) Government of India, New Delhi addressed to the Secretary.

Sir,

The required data on building permits issued and number of buildings completed have been received upto the calendar year 1968 from the municipal towns with population of 75000/- and above in your State/Union Territory. But the response to this Organisation letter of even number dated. 17th June 1969 requesting for the same data relating to 1969 has been too poor to be of any help. Only the few municipalities have so far furnished the necessary data. The data from the municipalities shown in Annex I are to be received by this Organisation.

With a view to making a rough assessment of the building activity throughout the country the present study calls for a uniform flow of the aforesaid annual statistics on a continuous basis from ~~all~~ all the municipalities with population of 75000/- and above in all the States/Union Territories. Further these data are also to be furnished every year to the U.N. Statistical Office for publication in the U.N. Statistical year Book.

Having regard to the important objectives indicated above I would request you to kindly issue necessary instructions to the defaulting municipalities (Annexure I) in your State/Union Territory to furnish the above noted data for the calendar year 1969 at an early date.
